

# Assumptions

```
package com.Simplilearn.JUnit;

import org.junit.jupiter.api.Assumptions;
import org.junit.jupiter.api.Test;

public class AssumptionsDemo {

    @Test
    public void test1() {
        Assumptions.assumeTrue("abc".contains("z"));
        System.out.println("Test1");
    }

    @Test
    public void test2() {
        Assumptions.assumingThat("abc".contains("z"), () -> {
            System.out.println("Test2");
        });
    }
}
```
