Feature: Buy Mobile Phone

@TC_101

Scenario: A user must be able to buy a mobile phone on Amazon

Given a user is on the landing page of Amazon

When he clicks on Mobiles in the navigation bar

And he hovers the pointer over Mobiles & Accessories

And he clicks on Apple in the sub-menu

And he clicks on the second available phone

And he switches focus on the new tab

And he clicks on Buy Now button

Then he must be able to purchase the mobile phone successfully.

verify_error_message.feature

Feature: Login functionality

@TC_102

Scenario: A user with invalid credentials must get an error message while logging in

Given a user is on the landing page

When he hovers the pointer over Hello Sign-in menu

And he clicks on Sign-in button in the sub-menu

And he entered email address

And he clicks on Continue button

Then he must see the error message - "We cannot find an account with that email address"
