

While Loop

```
public class WhileLoop {  
    public static void main(String[] args) {  
        int i=0;  
        while(i<=15){  
            System.out.println(i);  
            i++;  
        }  
    }  
}
```
